Pitch 'n Time Pro 3 and LE 3 are installed on OS X via the following location: Mac HD/Library/Application Support/Avid/Audio/Plugins. Make sure your DAW and .NET plugins are enabled before proceeding. If you're just starting out with Pitch 'n Time Pro 3, it might be easier to install plugins from Avid. If you are already using Pitch 'n Time Pro 3, we recommend uninstalling it and then installing the plug-in from Avid. If you're already using Avid Pro Tools then this will be much easier and much more intuitive than the first method, but if you're new to Avid, still use the first method just to be sure. Install Avid plugins.
